

AL60-Cabin II

Cabin berth light for accommodation areas

Description

The new Glamox AL60/61 is a robust designed family of luminaires with an elegant expression – specially designed for LED. The family consists of berth light, mirror light, circular light, two indoor square lights and two outdoor square lights. The luminaires fit in applications like cabins, corridors, lounges and entrance areas. The AL60/61 family is designed and approved for marine demands. Glamox states quality in design and gives the product 5 years warranty.

Glamox AL60-Cabin II bedlight has a compact design with an integrated touch switch that is dimmable. It has a modern, elegant look with brass or chrome joint and adjustable light head that makes it easy to direct the light where it's needed. The lamphead in black, white or chrome is designed for cooling to ensure long lifetime for the LED inside. It is available with several décor colors. AL60-Cabin II is also available with an integrated USB socket for charging. Due to the LED technology the light is energy saving and does not get hot so it is comfortable to touch.
