

HIR 1218 LED - HVLAS Reference Light

Description

The HIR Reference Light (amber / green) is being used to highlight the contour and obstructions of the ships structure and is therefore an important measure for the safe night approach.

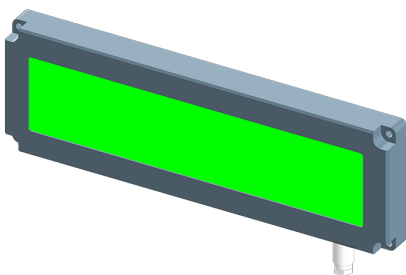

The HIR Reference Light is also used as a reference light with the HIHRS Horizon Reference System.

The green and amber Reference Lights can be used with Night Vision Goggles (NVG) in accordance with MIL-STD.

Main advantages:

- Night Vision Goggles (NVG) compatible
- Integrated amber or green LED light according to ICAO standards
- Shock, Vibration and EMC proofed
- Non-corrosive optimized case for long lifetime
- Low power consumption
- LEDs instead of bulbs for long lifetime and absolutely low lifetime costs
- Proof against seawater / fuel
- Dimmable
