

Navy 1934 LED Chart Light

Technical lighting – surface mounting

Description

The 1934 Chart table light has been recently redesigned with new white and green LED's. The new green LED's are NVIS compatible and will not disturb Night Vision Goggles operation when the Luminaire is installed on places where the light is visible from the outside. The light can be dimmed in a range of 10 % to 100 % and with a toggle switch the light source can be selected.
